Car parks
Public area/amenities
Hotels, conference centres
Reception area
Corridors and walkways
Stairwells
Cold stores
Stations/platforms

Description

The Earlsmann range of Bulkhead lights use our UK manufactured 2D lamp with 192 LEDs providing an attractive even glow unlike standard fluorescent 2D fittings.

They use only 12 Watts and replace 28W CFL types so make a significant contribution to carbon reduction programmes.

The emergency version provides a full 3hour backup at 100 lumens. With the microwave sensor option savings can be increased still further.

Suitable for interior or exterior use.

Features

Low power consumption
Instant start
Long life
Minimal maintenance

Benefits

Reduced energy usage, reduced CO2
Full brightness at turn on - improved safety
Reduced maintenance costs
Reduced costs

Specifications

Efficacy	>83lm/W
Colour Rendering Index	>75Ra
Voltage	220-240Vac 50/60Hz
Markings	CE, ROHS
LED	192 pcs CREE
Output	1000lm
LED life	>50000hrs L70 B10
Power factor	>0.9
Power consumption	12W
Weight	<4kg
Sealing	IP65
Ambient temp.	-20°C to +35°C
Non dimmable	

Drum	IP65
Discus	IP44
Flying Saucer	IP20

Options

Emergency and microwave sensor
Housing style, diffuser type, housing colour
