Selecting the Correct Luminaire

It is not possible to simply compare the lumen output of an LED luminaire with traditional lamps due to the way they are specified. Unlike LEDs, the lumens quote for a traditional lamp does not include losses within any ballast or fixture. In some cases over 50% of the energy used is not seen as useful light.

Please call our Technical Department for advice on 08456 434740

Applications

Offices interiors
Retail outlets and shopping centres
Hotels
Restaurants
Cafes

Description

These compact luminaires are ideal for retail environments due to their dual axis tilting heads. Light can be directed exactly where it is needed! Furthermore, since they emit no UV and run cool they are perfect when in close proximity to products or people. A service life up to 30,000 hours ensures reduced maintenance. Due to their high efficiency, these luminaires are extremely environmentally friendly and will help significantly with carbon reduction programmes.

Features

Low power consumption
Instant start
Tilting heads
No flicker
Long life
No heat
No mercury
Minimal maintenance
80Lm/W

Benefits

Reduced energy bills, reduced CO2
Full brightness at turn on - improved safety
Light where it's needed
Improved working area comfort
Reduced maintenance costs
Reduced aircon maintenance, running cost
Simplified disposal at end of life
Reduced costs
High efficiency

Specifications

Colour Temperature	5-6000K
Colour Rendering Index	80Ra
Sealing	IP20
Voltage	90-260Vac
Beam Angle	40deg
Standards	IEC598
Electronic Safety	Class II
Markings	CE
Efficacy	80Lm/W (typ)
Depth	135mm

Options

Colour	Warm white
Voltage	12/24Vdc

Ordering

Model	Size (mm)	Cutout (mm)	Power (W)	Lumens (Lm)
E6F008/7/40	206x206	160x160	7	560
E6F009/14/40	390x206	350x160	14	1120
E6F010/21/40	525x206	480x160	21	1680
E6F012/28/40	670x206	620x160	28	2240
