

Edge Lit Products

Light Shelf Strip

If your shelf has polished edges you will see multiple points of light refracted. Bright and very effective.

If you would prefer a frosted effect we can supply a self adhesive tape.

If your shelf has frosted edges you will see an evenly distributed, more subtle, glow.

Discuss your requirements

Every application is different so it is important to understand exactly what is required so we can advise on design.

Please call our Technical Department for advice on 08456 434740

Power Supplies and Controllers

We have a wide range of power supplies and colour controllers to suit your application. Please call to discuss the most suitable.

Applications

Kitchens
Bathrooms
Bars
Clubs
Hotels
Restaurants
Reception

Description

The Earlsmann Light Shelf Strip is designed as an easy to fit accessory for glass and acrylic shelving which will add sparkle, light and colour to existing displays in domestic, commercial and retail environments.

The strip is designed to fit 10mm thick shelves as standard but adapters can be supplied for 6mm and 8mm. LEDs are used to provide the illumination.

Three versions are available

Single colour
Super Bright
RGB

We can also colour match to complement your scheme.

Please be aware standard toughened glass has a slightly green natural hue which will affect the final colour.

Features

Bright
Low power
Choice of colours
No UV
Uses existing shelf
Low voltage

Benefits

Eye catching
