

# Interior Lighting

## Emergency Light

### Selecting the correct fitting

Please ensure the required floor lux level is achieved with this device.

Please call our Technical Department for advice on 08456 434740

### Applications

Office interiors  
 Retail outlets  
 Conference Centres  
 Hotels  
 Libraries  
 Corridors & walkways  
 Add on for LED tubes

### Description

These compact LED emergency lights are ideal for use in corridors, stairwells and other places that require a smart, discrete unit.

There is a choice of a 45mm diameter aluminium finish downlight or a simple clip version perfect for adding a quick emergency light solution to replacement tubes. It can also mount direct to a ceiling or panel with a 20mm hole.

During normal use they emit a low level green status "On" light, In the event of power failure this will change to a super bright 75 lumen's output white light for 3 hours.

These are complete kits supplied with pre wired LED downlight, inverter and battery pack.

### Features

Instant start  
 No mercury  
 Minimal maintenance

### Benefits

Full brightness at turn on - improved safety  
 Simplified disposal at end of life  
 Reduced costs

### Specifications
