Discuss your requirements

Every application is different so it is important to understand exactly what is required so we can advise on design.

Please call our Technical Department for advice on 08456 434740

Applications

Kitchens
Bathrooms
Bars
Clubs
Hotels
Restaurants

Description

The Earlsmann Light Shelf uses LightTape® to provide a subtle even glow and is designed for use in low ambient light conditions such as bars, clubs, restaurants and hotels. Light Shelf is equally at home in domestic environments. The front edge is frosted for even illumination.

Like LightTape®, Light Shelf requires a small inverter and power supply.

Brackets

Due to personal choice, brackets do not come as standard. Please discuss with our technical department when ordering for advice.

For discreet mounting please see our Magic Shelf with cantilever bracket.

Pinch brackets are not suitable and were only used for photographic purposes.

Features

Even glow
Low power
Choice of colours
No UV
