

Edge Lit Products

Magic Shelf

Discuss your requirements

Every application is different so it is important to understand exactly what is required so we can advise on design.

Please call our Technical Department for advice on 08456 434740

Applications

Kitchens
Bathrooms
Bars
Clubs
Hotels
Restaurants
Shops

Description

The Earlsmann Magic Shelf uses either LEDs to provide a vibrant even light in brighter ambient light conditions such as shops, brighter bars and restaurants and reception areas or LightTape® to provide a subtle glow where a more gentle mood is required. Magic Shelf is equally at home in domestic environments. Available in a range of standard colours with full RGB as an option (LED only) and are manufactured in scratch resistant toughened glass or acrylic. The edge is frosted to provide an even illumination.

Brackets

These shelves come supplied with a cantilever bracket system in either silver anodised or white finish. A wall plate is screwed to the wall and the shelf clamp hides the screws making mounting look discreet.

Features

Low power
Choice of colours
No UV, no heat
Choice of thickness

Benefits

Economical to operate
Complements decor
Safe with delicate materials
Tailor to the application and effect required
