

LEDs

Neon Flex™ Accessories

Description

NeonFlex™ is an LED version of neon tubes. The outer jacket is a highly flexible plastic which is completely waterproof making it ideal for indoor and outdoor use. It is available in a variety of colours including RGB. It is very low energy and with a life up to 100k hours it offers significant savings compared with traditional neon. Continuous lengths up to 300m are possible and it can be bent and looped with no visible hotspots.

In order to make it simple to use a wide range of power supplies and accessories are available.

This includes mounting channels, connectors and terminals.

Assemblies

We can manufacture assemblies to order in our workshops in Devon

Signs

Simply provide us with a drawing of your sign requirements and we will quote for manufacture. We will advise which version of Neon Flex™ is the most suitable for your application.

Ordering

Please call our office for advice on items required.
