

LEDs

Neon Flex™ Standard & Mini Series

Description

NeonFlex™ is an LED version of neon tubes. The outer jacket is a highly flexible plastic which is completely waterproof making it ideal for indoor and outdoor use. It is available in a variety of colours including RGB. It is very low energy and with a life up to 100k hours it offers significant savings compared with traditional neon. Continuous lengths up to 300m are possible and it can be bent and looped with no visible hotspots.

Features

Waterproof IP67
Long life
Low power
Long length possible
