

304 Series™

Industrial plants and car parks – Mounting 4 - PR (Type III Medium)

Product Description

Cree 304 Series is a fixture with a sober and extremely versatile design. Luminaire is constructed from rugged die-cast and extruded aluminum components. LED driver is mounted in a sealed weathertight center chamber that allows for access from below the luminaire. Its mounting system features a stainless steel adjustable bracket allowing adjustment through 180° in increment of 5°. The product's technical and mechanical properties make it particularly well suited for lighting locations subject to critical conditions as vibrations, strong wind for example bridges, tunnels, etc.
