

Interior Lighting

Discus LED Bulkhead Lights

3 YEAR WARRANTY

Create an even glow with Earlsmann's Discus LED bulkhead

Minimise glare and eliminate flicker with our Discus LED bulkhead light. Advanced LED light engines provide an attractive even glow, avoiding the patches of light created by standard fluorescent fittings.

Each Earlsmann LED lighting unit has a long lifespan, so they're ideal for inaccessible areas where regular maintenance is difficult or presents safety issues (eg stairwells and high traffic areas). Available in 15W, these units can produce over 1200 lumens (replacing 28W 2D units).

The Discus LED bulkhead light includes a three-year warranty for your peace of mind. We offer a range of bezels, but do ask if you have a particular requirement – we can often design alternative enclosures to suit your needs.

Good to know: Earlsmann products use high quality components to ensure reliability.

Benefit from...

Low power consumption - **Reduced energy bills, reduced CO₂**
Long life, reduced maintenance - **Lower running costs**
Instant start, full brightness at turn-on - **Improved safety**
No flicker and minimal glare - **Improved working area comfort**
